February the 6 D 1842

Fair and dull times for whaling
these weather it is now a going
in for eight months since we new that
we saw a sperm whale and I would
ok any reasonable man if that is
it enough to discourage any one for
looking but we may despair but
there is a hope as long as life may
continue we know not what a day
may bring forth I hope that it will
bring forth a good large school of
Whales and that speedily to that
we may get 200 Blk out of them
is the desire of the author of this
Dialogue Believe me if you please
on board of the John B. Ford in Lat
37.52 Long 129.59 a heavy
breeze from the East we are
Double Reefed topsails all
and Leaned so we go to the

Handwritten text in cursive script, likely a library or collection mark, possibly reading "John H. ...".
